5. ☒ Applicant also offers the following comments for the Examiner's consideration:

Applicant is aware that prior art systems from the assignee of the present application utilized a constantly running background applet that polled the card reader using vendor specific commands to determine card type(s) inserted and dynamically altered the registry of the OS to present a card type dependent ICON every time a card was inserted. One drawback to this method is that PC OEMs do not like to have constantly running background applets because they consume power and present a recovery issue in case of system crash (i.e., have to be re-installed).

6. ☐ Also enclosed is a copy of a foreign search report citing these references.

7. ☐ The listed documents were brought to the attention of the Applicant(s) after payment of the issue fee in the captioned case. The documents were cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this Information Disclosure Statement. Applicant(s) request this Information Disclosure Statement and attached Form PTO-1449 be placed in the file of the captioned application.
8. ☐ Applicant(s) requests that the Information Disclosure Statement and attached Form PTO-1449 and references, which are being filed before the grant of the patent and pursuant to 37 C.F.R. § 1.97(i), be placed in the file of the captioned application.

The Commissioner is hereby authorized to charge any fees which may be required or credit any overpayment to Meyertons, Hood, Kivlin, Kowert & Goetzel PC, Deposit Account No. 50-1505/5707-06300/JCH.

Respectfully submitted,
